Cargo

Full Load Solutions

Possibilities of transportation by the southern route (Sea-Rail)

Combination of short lead time with advantages of cheaper sea freight

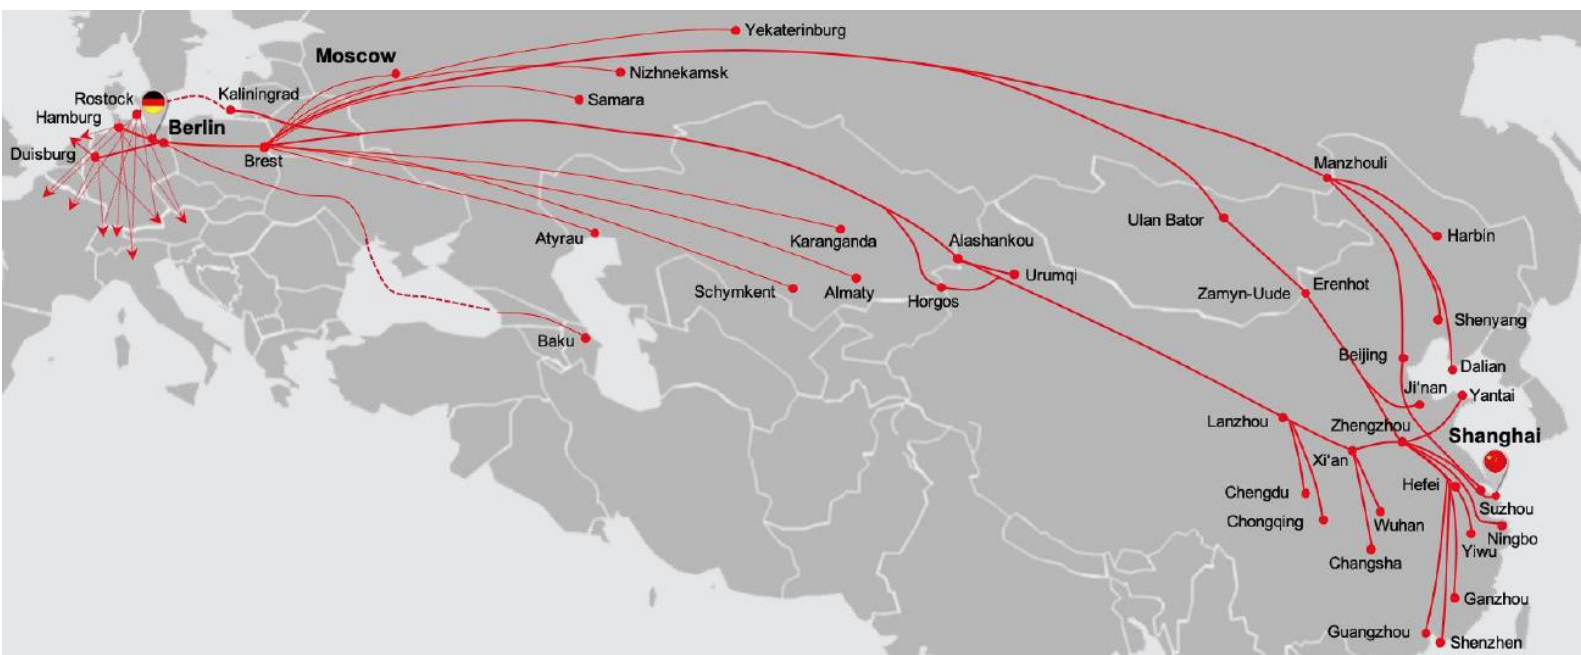

- Transport by the southern route is the first choice considering costs, speed, sustainability and ethical and moral aspects
- Depending on destination ports, transit time: 19-36 days

Possibilities of transportation by the classical northern route (Rail)

Many different train connections and own LCL services by well placed Freight Stations in China and Europe

- CFS-CFS transit time: 18-20 days (to PL/NL), 23-25 days (to SE)

DB Cargo Full Load Solutions offers the experience in cross-border transport resources that are essential for your full load transports.
