

Cargo
Full Load Solutions

Finland –Germany/ Belgium/ Netherlands v.v.

On the road in one of Europe's largest intermodal networks

We quickly and reliably connect Finland with Germany, Belgium and the Netherlands at high frequency in our intermodal network

- **High departure frequency** with several departures daily
- Transit time A-D/F
- We use **standard & MEGA tautliners** (HxWxL: 2.70/3.0 x 2.46 x 13.60m)
- **Payload up to 28 t**
- Flexible production concept through **combination of road, rail and ferry**
- Fast and reliable without traffic jams, rest periods or Sunday driving bans
- Cost-efficient and environmentally friendly without toll charges and with **reduced CO2 emissions**
- Reliable and predictable cargo space availability
- Our **local contacts** will advise you in your native language
