Full Load Solutions

Logistics solutions for Ukraine

Your trusted European partner for logistics to and from Ukraine

Our corridor network Ukraine

We combine the strength and stability of a leading European logistics network with deep local expertise on the ground. Our Ukrainian team delivers fast communication and reliable end-to-end support, including export, import and transit customs clearance for smooth cross-border flows.

Rail & Multimodal

- Transports **via key border crossings** Medyka (PL), Dorohusk (PL), and Čierna nad Tisou (SK)
- **Standard and dedicated services** including block trains and single wagon traffic
- **Border terminals with narrow and broad gauge** in PL, SK and UA enable end-to-end execution

Road

- **End-to-end transport solutions** from/to Ukraine
- Flexible concepts supported by preferred local third-party partners

Eurasia

- Flexible **Rail and SeaRail** connections between **Europe and China**.
- **We offer FCL/FTL services (single container, block train)** as well as logistics services such as **pre-and on-carriage, customs brokerage** and **value-added services**.

DB Cargo Full Load Solutions offers the experience in cross-border transport resources that are essential for your full load transports.
