Full Load Solutions

DB Cargo Full Load Solutions

Partner for your FTL transports by road and rail

One-stop Full Load Solutions for Europe and the Eurasian corridor

- DB Cargo Full Load Solutions offers suitable logistics solutions for your **FTL transports by rail, road, intermodal and shortsea** – supplemented with **value-added services**.
- We specialise in **door-to-door transports** in Europe and on the Eurasian corridor.
- **Proximity** to our customers and **flexibility** thanks to our **local service**, combined with quick decision making and uniform processes are what sets us apart
- We intelligently combine trains and trucks. Our mission: **As much rail as possible, as much road as necessary**

The strengths of DB Cargo Full Load Solutions

Expert knowledge

We are experts in door-to-door transports on all modes of transport for your FTL - on site, in your language

Sustainable logistics

We combine climate-friendly rail transports for long distances with the flexibility of truck transports

Reliability

Part of a leading global logistics group - access to one of Europe's largest rail and intermodal networks

Value-added services

Our logistics solutions are supplemented with value-added services such as warehousing

DB Cargo Full Load Solutions offers the experience in cross-border transport resources that are essential for your full load transports.
